

Prepared by the U.S. Army Topographic Command (AOTC), Washington, D.C. Completed in 1957 by photogrammetric methods and three United States Coast and Geodetic Survey (USCGS) 1:250,000, and 1:50,000, 1952-1953. Photostereos from aerial photographs taken 1954-1955. Photogrammetric field completed 1956. Revised by the U.S. Geological Survey 1959.

100,000-foot grids based on Utah coordinate system, central zone and Colorado coordinate system, central and north zones.

Location of geographic control established by government agencies is shown as corresponding 1:250,000-scale Geodetic Control Diagram.

LEGEND

POPULATED PLACES

Scale 1:250,000

100,000 to 500,000
 25,000 to 100,000
 5,000 to 25,000
 Less than 5,000

ROADS

Primary, all weather, hard surface
 Secondary, all weather, hard surface
 Light duty, all weather, hard or improved surface
 Fair or fair weather, unimproved surface
 Trail
 Footpath

BOUNDARIES
